SUITABLE FOR
WET AREAS

INDOOR &
OUTDOOR USE

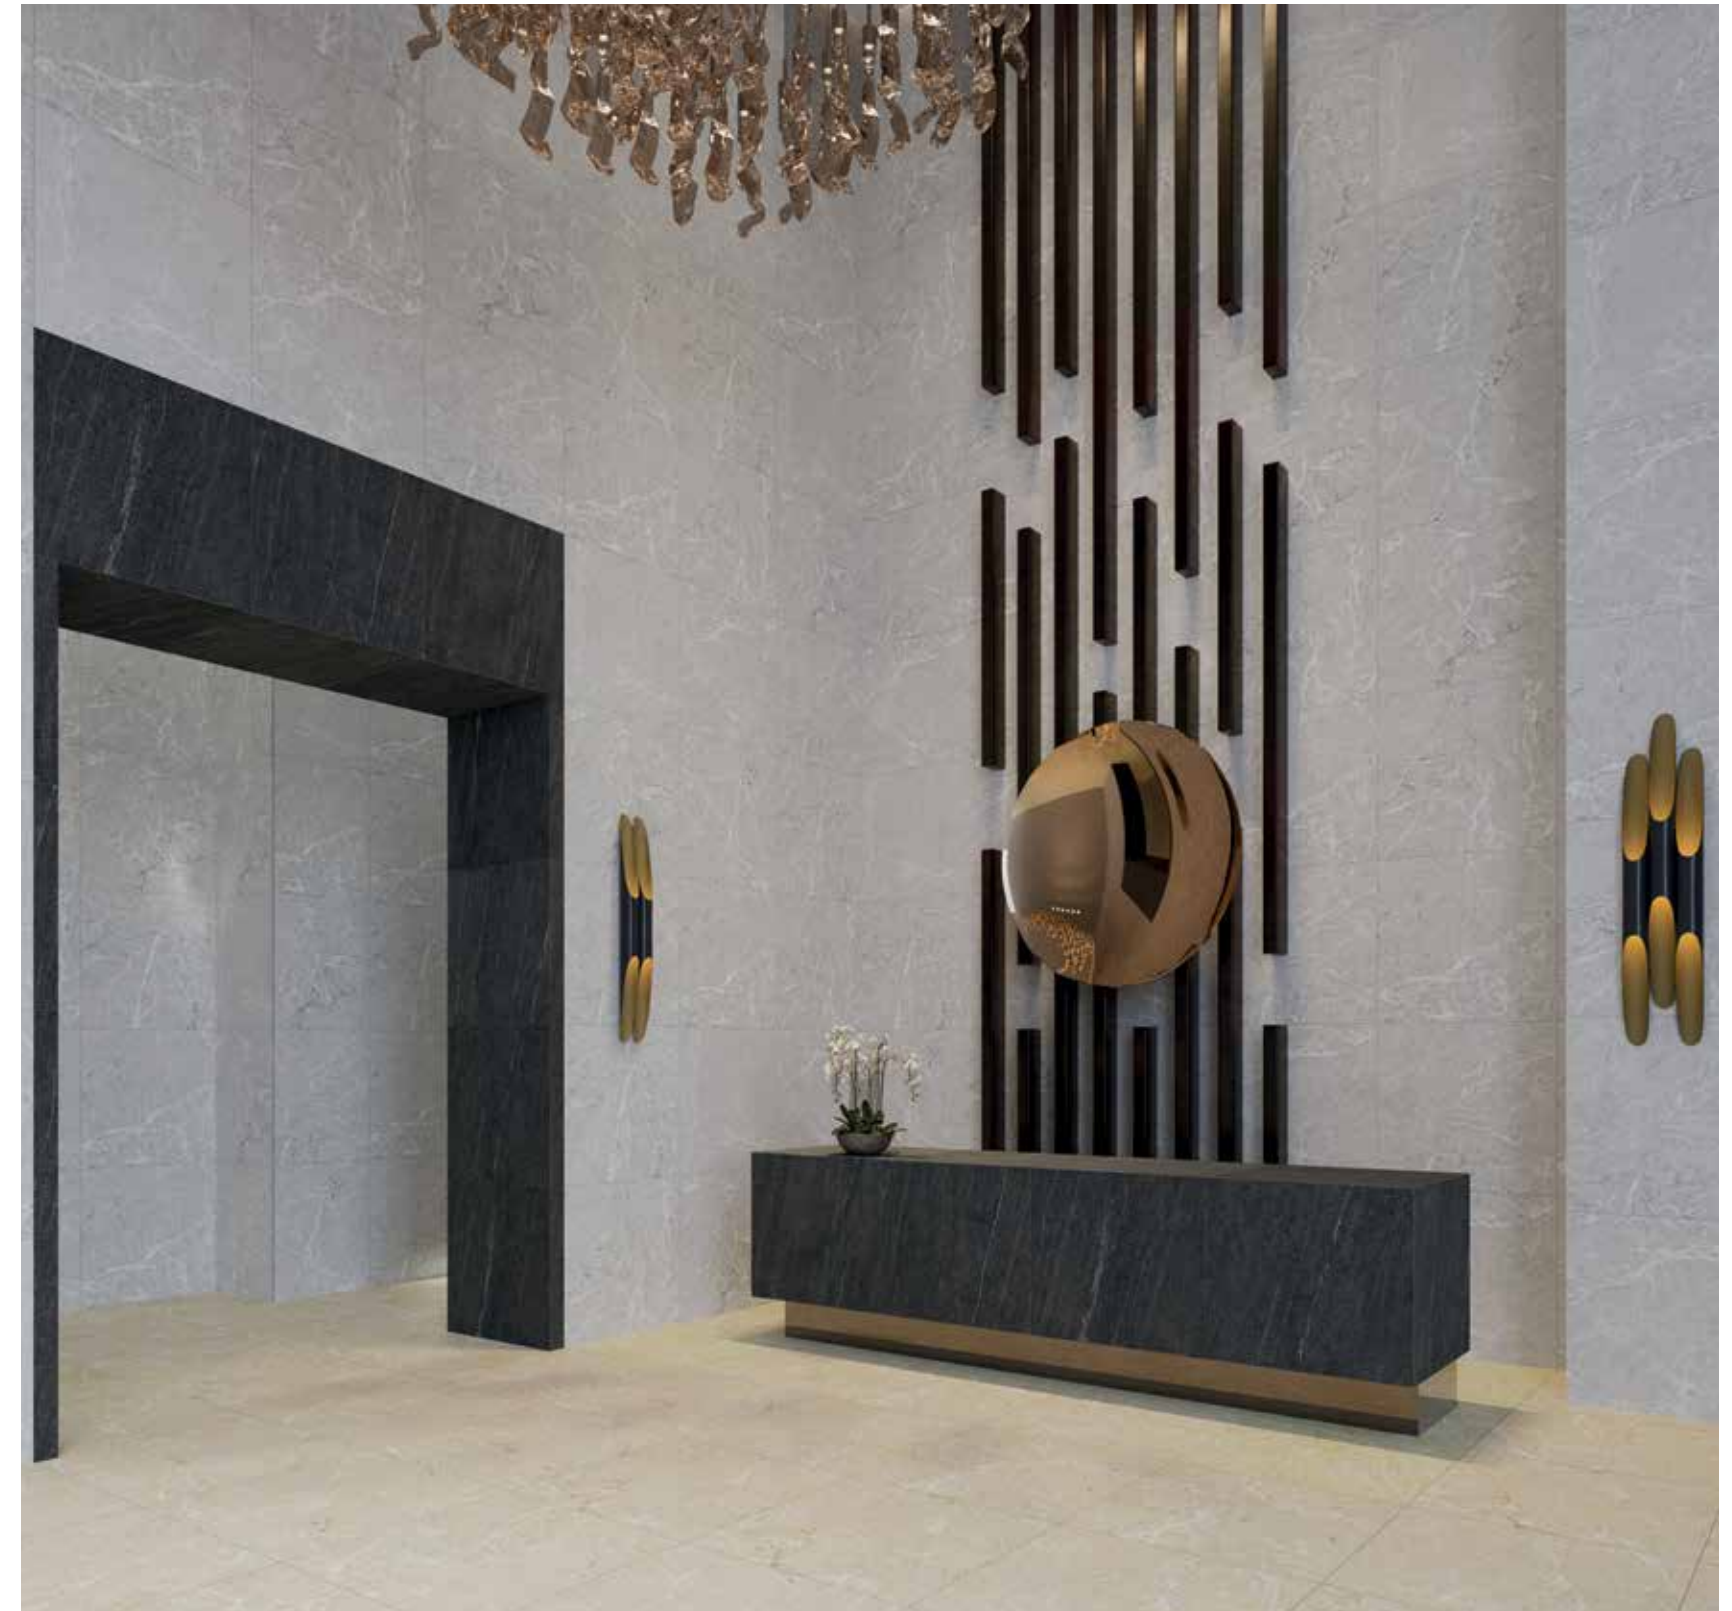

Infiniti Granite Tile always strives for innovation to enhance product quality. With the latest **STEP SAFE*** technology, Infiniti redefines slip resistance by making smooth tiles safer without sacrificing elegance.

Many believe that only rough tiles provide grip, but **STEP SAFE*** proves otherwise. This advanced innovation activates friction upon contact with water, reducing the risk of slips and injuries in both residential and commercial spaces.

Infiniti Granite Tile ensures a perfect balance of performance, aesthetics, and practicality. With a smooth, easy-to-clean surface that remains slip-resistant when wet, it is ideal for both indoor and outdoor use, especially in moisture-prone areas. Now, safety and style go hand in hand.

INFINITI
GRANITE TILE

STEP SAFE* SERIES

ANTI-SLIP*

DURABLE &
LONG-LASTING

EASY TO
MAINTAIN

SUITABLE FOR
WET AREAS

INDOOR &
OUTDOOR USE

Infiniti Granite Tile always strives for innovation to enhance product quality. With the latest **STEP SAFE*** technology, Infiniti redefines slip resistance by making smooth tiles safer without sacrificing elegance.

Many believe that only rough tiles provide grip, but **STEP SAFE*** proves otherwise. This advanced innovation activates friction upon contact with water, reducing the risk of slips and injuries in both residential and commercial spaces.

Infiniti Granite Tile ensures a perfect balance of performance, aesthetics, and practicality. With a smooth, easy-to-clean surface that remains slip-resistant when wet, it is ideal for both indoor and outdoor use, especially in moisture-prone areas. Now, safety and style go hand in hand.

Available in size :
60X60, 80X80 & 100X100

*Mengurangi resiko tergelincir dengan material khusus yang aktif saat terkena air, sesuai dengan hasil PTV (Pendulum Test Value) di R11 (P4)

PRODUCT CERTIFICATION

The **R rating measures the slip resistance of flooring materials**, especially in wet conditions, making it essential for areas like commercial spaces, bathrooms, and outdoor environments. R ratings range from R9 to R13, determined through a ramp test that evaluates the angle at which slipping occurs—the higher the rating, the better the grip.

Infiniti **STEP SAFE*** technology is classified as R11, providing high slip resistance while maintaining a smooth, easy-to-clean surface. This ensures both safety and style without compromise.

CLASSING	INCLINE ANGLE	SLIP RESISTANCE	AREA OF USE
R9	6°-10°	Low	■ Suitable for dry indoor areas, such as living rooms and bedrooms. ■ Not recommended for areas that are frequently wet or exposed to water.
R10	10°-19°	Medium	■ Suitable for most indoor applications, including residential kitchens, hallways, and low-traffic commercial spaces. ■ Can be used in areas that may occasionally get wet but not continuously exposed to water.
R11	19°-27°	High	■ Suitable for areas that may become wet, such as bathrooms, kitchens, and laundry rooms. ■ Often used in commercial kitchens or areas where water spillage is likely.
R12	27°-35°	Very High	■ Suitable for commercial spaces, industrial areas, and outdoor surfaces exposed to water, like swimming pool surrounds and outdoor terraces. ■ Provides excellent slip resistance even when the surface is wet or greasy.
R13	Over 35°	Maximum	■ Suitable for areas with a high risk of slipping, such as heavy-duty industrial floors, ramps, and wet processing areas. ■ Often used in commercial or industrial settings where continuous water exposure is expected.
